BROWNING WINS FAMOUS SUIT AGAINST WIFE

(By Universal Service)
CARMEL, N. Y., March 21.—A decision favoring Edward (Daddy) Browning in his famous suit with his youthful wife, "Peaches" Heenan Browning was handed down today by Justice H. A. Seegar who presided at the court for separation.

Daddy Browning won every point in the suit. Justice Seegar stated that Peaches did not substantiate her sensational charges, and that her suit for separation was therefore denied and that the husband was entitled to separation forever.

Under the justice's ruling Daddy will not have to pay Peaches a cent of alimony. She has been receiving \$300 a month from her millionaire since shortly after their separation pending the outcome of the trial.

The next move in the marital suit will be for the successful attorneys representing Browning to prepare the findings in fact and the conclusions in law and the preparations of the alternative findings by Peaches' lawyers.

When this has been done, Justice Seegar's decision will be adopted.

**MAN JAILED
ON CHARGES
OF ASSAULT**
Charged with assault, Jose Aranda, 27, a laborer of North Richmond, was yesterday arraigned before Justice of the Peace John Roth, and in lieu of \$1,000 bail was remanded to the county jail at Martinez to await preliminary hearing.

Margrito Garcia, 648 Third street, accused Aranda of having attacked her 11-year-old daughter while the parents were away from home Sunday.

"HE DONE HIS DOOTY WHEN HE SEEN IT"

It annoyed John Young, 30, of San Francisco, excessively to see traffic in a partial state of demoralization at Tenth street and Macdonald avenue Sunday afternoon.

Although equipped with but one arm, Young, called bravely forth to a central position at the intersection. He had no silver star to enforce his action, but it is freely admitted that his "brass" fully compensated for any lack on that score.

With entire self control he attempted to solve the traffic snarl, but found from the snarl of late drivers a few moments later that the problem was for one who understood motorists and their peculiarities.

He was led away from the scene of chaos and congested Sunday traffic in a state of perspiration and mild wonder. Richmond police authorities held him for examination into his sanity, but released him to prey upon San Francisco a few hours later. It is understood that Young's action was prompted by pure philanthropy.

However, he is not quoted as saying: "That's my story and I'll stick to it."

Hurley Issues Building Permits

City Building Inspector A. J. Hurley yesterday issued the following building permits:

P. M. Sanford, to place a foundation under a cottage on the east side of Eighth street between Chanslor avenue and the Santa Fe tracks at a cost of \$100.

C. R. Wolleson, to construct a one-car garage on the east side of Eighteenth street between Roosevelt and Clinton avenues, at a cost of \$150.

Mrs. B. B. Fitzpatrick, to place a garage under a house on the west side of Idaho avenue between Richmond and Buena Vista avenues at a cost of \$50.

C. Richardson, to erect a patent flue on a residence on the south side of Glenn avenue between Scenic and Buena Vista avenues at a cost of \$50.

Large Number Attend Credit Bureau Meet At The Carquinez

An exceptionally large and appreciative gathering attended the dinner of the Richmond Credit Rating Bureau in Hotel Carquinez last night. Mrs. Marie Macdonald Jensen presided in the absence of Chairman Ward McRadden.

The program of the evening was opened by Harry Wingfield of Concord, who proved to be a soloist and clog dancer of genuine ability. He was ably accompanied by Emil Esola, well known Richmond pianist. An impromptu recitation by Mrs. W. H. Sanford was well received.

Mrs. Elsie Beamish Parson delighted the audience with serious readings and received especial commendation for her rendition of Kipling's "If." Mrs. Parson, through her personal acquaintance with Rudyard Kipling, was well equipped to lend the proper interpretation to the poetry.

Anglin Speaks
Clifford Anglin, collector for the Credit Bureau, made a stirring appeal for better co-operation on the part of members with the bureau and stressed the point that the ideals of the bureau were high and should be upheld for protection rather than for collection aims. Anglin in the short time of his association with the bureau has made excellent progress.

The meeting went on record as in favor of endorsing the legislative program of the California Association of Credit Bureaus.

Birthday Cake

The surprise feature of the occasion was a huge birthday cake presented to Miss Luella Mitchell of the Credit Bureau in honor of her twentieth birthday. The whole-hearted co-operation which the members gave toward disposing of the cake gave ample testimony to the cuisine of Hotel Carquinez and the art of Chef Schroeder.

Adjournment was declared until May 1, inasmuch as the April meeting was postponed in order that the members of the Credit Bureau might join with the Merchants' association in the Get-Together to be held in Hotel Carquinez April 15.

Tax Collector J. O. Ford reported to the council last evening that during the month of February he had collected \$3,161.26.

OIL SWINDLER GETS 2 YEARS AND \$1000 FINE

Sure Shot Brady Is Found Guilty of Using The Mails To Defraud

Found guilty of using the mails to defraud, M. G. "Sure Shot" Brady, who swindled many people in Contra Costa county of life time earnings, was sentenced yesterday by Federal Judge George W. Bourquin to serve two years in a Federal prison and pay a fine of \$1,000 and costs of trial, estimated at \$2,500.

"You have the disposition of a robber and the courage of a sneak thief," said Judge Bourquin. "You wanted big money, yet you scold about swindling the poor and the old. These fraudulent affairs are netting promoters over \$100,000,000 a year. Generally their victims are the poor and the elderly."

"As people grow old they become anxious to enlarge their funds and fall easy victims to such men as you. You took their all, darkened their declining years and doubtless shortened their lives."

Pending an appeal an application for stay of execution was made by the defendant's lawyer, Judge Bourquin refused the application, saying "I don't believe in convicted persons roaming the streets."

A stay of 24 hours was finally granted with the proviso that Brady furnish a bond for payment of his fine and costs, and further bond for \$5000 for appearance in court.

The case was given to the jury late on Saturday and verdict was sealed at 10:30 o'clock Saturday. The decision was revealed when the court convened yesterday morning.

PAVING BIDS FOR SAN PABLO OPEN APRIL 4

Bids will be opened for the paving of San Pablo avenue from the El Cerrito city limits on the south, to the northern city limits of Richmond on April 4th. Bids for the sanitary sewers on San Pablo avenue will also be opened at the same time.

This was the result of the action taken at the meeting of the council, at its meeting held last evening. There were no protests filed against the proposed work.

With the good weather coming, there will be nothing standing in the way of the contractor who gets the work of proceeding rapidly with the improvement.

San Pablo avenue will be paved with a cushion of four inches of broken rock, two three inches layers of asphaltic concrete, and a two inch wearing surface of a patented pavement.

El Cerrito Building Permits Total \$5,500

Building in El Cerrito is showing a sharp increase. Permits for the erection of two new homes were issued by City Building Inspector J. F. Walsh yesterday. A \$3,500 home will be built by William Rush in the Richmond annex, with George H. Barber as contractor. H. Brovinsky will construct a home at a cost of \$2,000 in the Smith and Wink tract.

TUXEDO WAR ASSUMES A NEW SLANT

Soup and Fish and Overalls May Mingle at Get-Together

Signs and countersigns flash down Macdonald avenue as grim faced men with the light of conviction in their eyes pause on street corners, and engage in whispered conversations. Occasionally the eavesdropper may hear the mystic words: "Overalls, or white and black?"

And according to reports emanating from official headquarters the answer is almost invariably: "Overalls, by cracker! Overalls, or bust the studs that won't be allowed at the Get-Together and Entertainment!"

Others of this mysterious order mutter stealthily: "What's your number—blue or red?"

And it is rumored that some clerical individuals become red in the face at the question and reply with emphasis: "Blue, to match the overalls. You can't match the overalls. You can't match the overalls."

Oakland Girl Sues County For Damages

Appointment of the Oakland law firm of Donahue, Haynes and Hamlin, as associate counsel to District Attorney A. B. Tinning in the damage suit instituted in Alameda county against Contra Costa county by Miss Bertha Rodgers, was announced yesterday.

Miss Rodgers alleges that on July 16, last, the automobile in which she was riding with George Gelhaus struck an obstruction on the highway near Lafayette and was ditched, causing injuries to her.

She demands \$5,000 damages and \$680 for doctor's bills which she claims were necessary for treatment of a double fracture of the jaw.

Free Toll Bridge Asked Of Board Of Supervisors

MARTINEZ, March 21.—The state highway commission today asked the Contra Costa county board of supervisors to adopt a resolution to call for the operation of the Carquinez bridge as a free unit when it passes from the hands of the American Toll Bridge company to Contra and Solano counties 22 years from now.

Representatives of the state commission indicated that a federal appropriation would possibly be forthcoming for the highways leading to the bridge if it were operated free of toll. The law provides that no funds will be allotted by the government if tolls are paid.

Members of the supervisory board stated that they deemed it unwise to take any action in the matter which would affect members of the board 22 years from now.

KEY SYSTEM GIVEN MONTHS EXTENSION

The Key System Transit company was granted a three months extension for the operation of its bus line to the ferry or the Southern Pacific company.

PERMIT ISSUED
The council last night granted a permit to L. D. Moore for a soft drink place and pool room at 126 Washington avenue.

TWO CONFESS TO SLAYING N. Y. EDITOR

Young Salesman Admits Complicity In Brutal Crime

By EDWIN THOMPSON
NEW YORK, March 22.—Henry Gray, young salesman, of East Orange, N. J., broke down and confessed early this morning that he was the paramour of Mrs. Albert Snyder and assisted her in slaying Snyder according to District Attorney Newcomb of Queen's county.

The confession—a tale as gruesome and startling as the one which Mrs. Snyder related Monday—came a short time after Gray was brought back here from Syracuse where he was arrested early Monday.

The confession dovetails with one made by Mrs. Snyder with but one exception. Gray insists that he struck Snyder who was art editor of Motor Boating with a windown sash weight wrapped in paper. He declares that Mrs. Snyder then took the weight from him and she also struck her husband in the head.

Gray is said to have admitted that he and Mrs. Snyder planned (Continued on Page 8)

DAY OFFICER WILL PATROL SAN PABLO AVE

Speeding along San Pablo avenue in El Cerrito will soon be stopped, according to the action of the trustees Monday night when they appointed W. L. Zimmerman as day traffic officer. With appointment of Zimmerman the city will have the avenue patrolled night and day, as Frank Walsh was placed on night duty about a month ago. The salaries of the traffic officers were fixed at \$150 per month with a car allowance of \$40 per month and gas and oil allowance of \$15.

In addition to the new officer the city received permission to patrol the avenue from Manila avenue south to the county line from the highway commission.

Financial Report Made To Council

The finances of the city of Richmond are in excellent condition, according to a report of City Auditor Nettie Whitesides filed with the city council last evening.

The report shows the following balances in the different funds: General, \$73,357.84; library, \$2,141.15; compensation, \$13,458.57; school, \$6,231.39; tax redemption, \$2,177.20; harbor maintenance, \$686.07; parks and playgrounds, \$5,763.60; 1912 bond, \$4,682.43; 1920 bond, \$581.58; 1922 bond, \$254.40; 1924 bond, \$4,675.36.

EXTENDS TIME
The council last evening granted the light committee one more week in which to make a report on the petition for a street light at the corner of Thirty-eighth and Cutting boulevard.

Alibi Blasted

(By Pacific & Atlantic)

The alibi of Walter Goldberg, 18, charged with the murder of Anna Harris (above), a Brooklyn, N. Y., school girl, was shattered when the medical examiners autopsy showed shot was fired several feet from girl and not at close range, during struggle for revolver as Goldberg contended.

COUNCIL MAY REZONE STREET TO PERMIT TWO NEW BUILDINGS

If a favorable recommendation is received from the planning commission two new business structures will be erected on Barrett avenue between McLaughlin and Macdonald avenues.

Petitions were received by the council last evening for permits to erect the buildings. The statement was made that the buildings would be one story at the start, but would be so constructed that additional stories could be placed on them, and turned into apartment houses.

In order for the permits to be granted the planning commission would have to rezone the lots. The applicants were Earl Steele and P. Hammerberg.

Residents Ask For Improvement Of Hensley Ave.

A petition signed by seventeen property owners was presented to the council at its meeting last evening asking for the improvement of Hensley to the northern city boundary, northwest avenue from Essex to East street, and Monroe street from Essex to East street.

The petition was referred to the street committee.

U. S. PREPARES FOR ACTION IN SHANGHAI AS ATTACK NEARS

3,000 Marines Mobilized At Quantico May Be Rushed To China

WASHINGTON, March 21.—Three thousand marines have been mobilized at Quantico, Va. for duty in China unless chaotic conditions in Shanghai immediately improve, it was learned at the navy department tonight.

These marines have been quietly called to Quantico from outlying posts and are ready to embark at a moment's notice. Transports are available to carry them from the Atlantic coast, and they may be sent to San Diego to embark to save time in an emergency.

This was made known as reports tonight from Admiral Clarence S. Williams, commander in chief of the American and allied forces in Chinese waters, reported the situation in Shanghai to (Continued on Page Five)

Canine Is Motif Of Courtly Entertainment

A charming and totally unexpected surprise party was tendered Charles H. Nicholson, 461 Ninth street, Richmond, yesterday morning, in Police Judge C. A. Odell's court.

Poundmaster Frank Mender was sponsor for the occasion and revealed that Nicholson was feled only because he had objected to a similar surprise party of the most recherche character that Mender had staged for a "little brown dog" owned by Nicholson.

Mender placed the "small dusky canine" in his green "Black Maria" much to said poech's wonder and amazement, when it was found that the animal bore no license.

Nicholson found the dog resting in pathetic repose behind the bars and objected to the impromptu affair with regard to which the canine had evidently not been consulted. Despite Mender's objections, he released the dog from the bonds of social obligation.

"It does not pay to interfere with an officer in these matters," Judge Odell stated, and pointed out that an offense of this kind was subject to a maximum fine of \$5,000 and a five-year term in the county jail.

Nicholson was then made the recipient of a fine of \$50, and those who enjoyed the occasion returned to their homes at an early hour.

FOR THE ULTRA-MODISH WOMAN

A frock that is both chic and practical may be copied after this model. Embroidery adds a touch of trimming, and introduces the two-color scheme, the handwork being in light and dark shades of the color of the dress material. Turn-back cuffs finish the long sleeves, while the collar lends itself to open or closed treatment. Medium size requires 2 1/2 yards 34-inch material. The two-piece frock is distinctly a Paris favorite, especially for daytime wear. A two-piece band, applied to the lower edge of the blouse, gives a novel note to the design pictured. It is developed in flat crepe in two shades of rose. The flare in the sleeves is caught with a ribbon, and the fullness above the hips is treated similarly. Medium size requires 4 1/4 yards 36-inch material.

First Model: Editorial Review Printed Pattern No. 3678. Sizes, 14 to 18 years and 34 to 50 bust, 45 cents. Embroidery No. 13144, blue or yellow, 35 cents.

Second Model: Printed Pattern No. 3643. Sizes, 14 to 18 years and 34 to 44 bust, 45 cents. Embroidery No. 13096, blue or yellow, 30 cents.

WRIGHT NOVEL IS PICTURIZED AT CALIFORNIA

"The Winning of Barbara Worth" which opened at the California theatre yesterday should earn new laurels for Henry King, its director, and for Samuel Goldwyn, its producer.

King has turned out what may be the greatest picture of his career and it is great because he tells it simply and without pretentiousness. "Barbara Worth" has a swing and an onward movement throughout which are the mark of genius.

The picture brings to the spotlight an entirely new and different Ronald Colman and Vilma Banky. Colman is magnificently unique, the matinee-idol atmosphere which surrounded some of his earlier productions is entirely absent, and it is easy to believe that he has no difficulty in proving himself a real man among men.

Vilma is beautiful and, more than that, she is in her role as an American ideal—for that is what Barbara Worth has become. Whether it is the genius of King which has made her into a girl more American than the Americans or whether it is her own native ability, cannot so easily be determined.

In any event, Miss Banky not only portrays Barbara Worth but she is Barbara Worth and it is easy to believe that Samuel Goldwyn was right when he said "Miss Banky can look more like an American girl than any girl I know. The trouble with most American actresses is that they try to look like foreigners."

But it is not the individual characters, so much as it is the picture as a whole, which marks "The Winning of Barbara Worth" as a truly epic production. It is a director's picture from start to finish. The feeling of the loneliness and the awesomeness of the American desert are marvelously brought out both by the use of hundreds and hundreds of characters and by such simple and unpretentious little scenes as a rattlesnake crawling out of a skull, the bones of a dead horse, the "unseeing" look on an actor's face, or a crying baby.

The love story is simple and unaffected but beautiful. Willard Holmes, the easterner, and Abner Lee, the westerner, both adore the golden haired Barbara Worth. One wins and one loses, but the manner of their winning and losing and the way the two men develop a grudging respect and eventually admiration for each other is a thrilling story as different from the usual run of triangle situations as to hold the intense interest of the audience.

Other features include the fourth chapter of "The House Without a Key," "Topics," and "Aesop's Fables."

Ronald Colman who has leading male role in Harold Bell Wright's "THE WINNING OF BARBARA WORTH," now being screened at the California Theatre.

'MONTE CARLO' IS AT RICHMOND

"Monte Carlo," a gorgeous film of fashion's lure, which was adapted from the story by Carey Wilson, by Metro-Goldwyn-Mayer, will be screened for the last time today at the Richmond theatre.

"Monte Carlo" is an exciting, rip-roaring screen success—the rollicking adventures of three American girls who play at love in fashion's famous capital, Le Havre, Gertrude Olmstead, Roy D'Arcy and Karl Dane have the featured roles.

"The Dippy Tar," a Lloyd Hamilton comedy; "Topics of the Day" and "Aesop's Fables" are other film features on the same program.

Coming Wednesday and Thursday, "Summer Bachelors," by Warner Fobian, author of "Flaming Youth," featuring Midge Moore, Allan Forrest, Matt Moore, Hal Hamilton, Charles Winniger, Walter Catlett and Olive Tell.

"Summer Bachelors" is a candid story of Broadway night club life and its newly discovered type—the married man who becomes a bachelor every summer.

Aged Prospector Killed In Weepah

(By Universal Service)
WEEPAH, Nev., March 21.—The first slaying in the Weepah gold field was recorded here today when August Corenke, veteran prospector, was found shot to death on his claim.

From the position of the body, authorities judged the aged mining man had made an attempt to pull his own gun when he was shot down.

Authorities of Esmeralda and Nye counties are investigating the murder on the assumption that it resulted from a feud between holders of lode and placer claims.

BODEN CO. IS MARKETING "BELLAIRE"

An unusual sale of Richmond property is being held by C. W. Boden company, well known realty developers.

They have placed 83 lots in "Bellare," a beautiful, low hill property just east of San Pablo avenue and just north of Macdonald avenue, on sale at prices which are lower than those which prevailed during the past year when this tract was almost entirely sold out.

"We have simply swept away all profit and are selling these lots at less than the cost of acreage property today," said Boden in explaining this sale which has caused considerable comment.

Boden said "When we opened the first unit of this property, 'Bellare,' we placed 541 lots on the market. They found sales response. We are selling these 83 remaining lots at unheard of bargain prices as we find that it is now necessary for us to concentrate our sales force and sales supervision on two new, large units of this property which will be on sale shortly.

Two New Tracts
"Country Club Terrace Unit No. 1" and "Country Club Terrace Unit No. 2," will soon go on sale. These two new units both adjoin "Bellare" and will be offered at somewhat higher prices than the prices which maintained in "Bellare" and before concentrating on these two new units we decided it was necessary to clean up the remaining lots in the first unit, also with the idea in mind of introducing our property more thoroughly to the public. Therefore, in the same manner that a retail merchant marks down final lines, etc., at certain seasons in the year we are offering the remaining 83 lots in "Bellare" at prices which will insure their ready sale. Anyone who knows real estate values will instantly realize the possibility open to them in this sale. We must have all our business activity centered in the one project. The way to secure quick action is to slash prices. It is going to be a case of first come, first served at "Bellare" during Sunday and Monday."

"Bellare" is just east of San Pablo avenue at Clinton avenue, the gateway to the foothill development of Richmond.

Wife and Husband Commit Suicide When Son Dies

(By Universal Service)
CHICAGO, March 21.—Authorities today were attempting to clear up the mystery surrounding the triple tragedy in the family of Arthur J. McEwen.

The body of Robert Mackenzie, stepson of McEwen, was found on an improvised funeral pyre, while the bodies of his mother and McEwen were found in their home, dead of cyanide poisoning.

Several theories of the deaths were advanced by investigators, but any or all of them might fit the case.

It is the general belief, however, that after Robert had been punished for taking \$20 from his mother's pocketbook, he was inadvertently killed.

Feeling great remorse for their act, McEwen and his wife, who were very much in love with each other, took the body and burned it, it is believed. They then returned to their home where they died in a suicide pact.

Possibility of another death in the family loomed today. Mrs. Clara McEwen, mother of the dead man, who has been seriously ill for some time, was visibly affected by the news of her son's demise.

MECHANIC WINS 25 YEAR SUIT FOR PATENT

(By Universal Service)
WASHINGTON, March 21.—John Bailey Browning, a former mechanic for the Victor Talking Machine company, today won in the supreme court his battle of a quarter of a century for title to an important patent claimed by that company.

The high court denied an appeal by the company from lower court decisions, holding Browning the legal owner of a patent on the two-door inclosed horn machine manufactured by the Victor company.

Coupled with Browning in his fight was the Brunswick-Balke-Collender company.

As a result of the high court's action, it was expected that a heavy suit for damages will be filed against the Victor company, unless a settlement is made out of court. No damages were involved in the present case.

Eldridge R. Johnson, organizer and one-time president and chief owner of the Victor Talking Machine company, had claimed ownership of the patent. Johnson filed his application for a patent for the invention on January 12, 1906.

In August, 1906, his company began production of the machine. Browning was at that time an employee.

Browning said he conceived the invention in 1897, and that in 1900, which was before he went to work for the Victor company, in company with his wife, he took a sketch of the invention to a Philadelphia lawyer, who was at that time an attorney for the Victor company.

Browning said that the invention had been shown to Johnson in 1900, and also to other officers of that company about that time. Johnson denied receiving the idea from any one and claimed he was the originator of it. He claimed that Browning discovered the invention while working in the Victor plant.

WAR CLOUDS IN BALKANS DISAPPEAR

ATTITUDE OF HANDS OFF IS TAKEN BY U. S. IN BALKAN WAR

(By Universal Service)
WASHINGTON, March 21.—The United States will steer clear of any entanglement in the Balkin dispute, which has many possibilities of war, it was learned at the state department today.

This country will also keep hands off in the effort which the League of Nations is now making to compose the difficulties and the pressure which some of the larger European nations are exerting, it was officially learned.

The United States will wield a wide influence in one direction, however, and wants it generally understood throughout Europe.

"Not One Dollar"
"There will not be one dollar advanced by this country for war to any nation a party to the dispute."

This was stated on the highest authority.
Officials believed that Great Britain would adopt the same policy and that this would make the Balkan war, with the possibility of France and Italy being drawn in as foes, extremely remote.

It was pointed out that none of the nations involved has the funds to finance a war for any length of time and would naturally have to turn to this country or to Great Britain.

A government loan is, of course, impossible because of an act of congress prohibiting it without express authority. Private bankers may advance money, but must consult the state department before doing so. Officials will advise them that this government disapproves.

U. S. PREPARES FOR ACTION IN SHANGHAI AS ATTACK NEARS

(Continued from Page 1.)

he extremely tense. Admiral Williams added that conditions are growing worse instead of improving. He said that "murderous attacks" on loyal Chinese former in mills are increasing.

The three cruisers Marblehead, Cincinnati and Richmond, the most modern in the American navy, are under steam at Honolulu and expected to sail for Shanghai.

38 Ships Available
With the 35 warships either in Chinese waters or at the American base at Manila, this would bring the total to 38. Most of the 35 are believed to be already anchored in the Wangpo river off Shanghai, or cruising up and down the Yangtze river above Shanghai. The ships are principally destroyers.

Admiral Williams reported the orderly landing of the 1,500 marines when the Cantonese invaded Shanghai. He is holding in readiness to reinforce them as many more bluejackets from the ships anchored in the harbor. As the remainder of the destroyers and the three cruisers reach the danger zone he will be able to land upwards of 5,000 men.

Situation Alarms
Officials were by no means certain that he will not have to do so. They view the situation with frank alarm and expect the international settlement to be attacked either by the disgruntled and defeated defenders of Shanghai or the unruly mass of Cantonese who have come in with the victorious army. In addition to this element of danger there are said to be 700,000 Chinese living within the settlement. These have already started a general strike and it is

feared that if they get beyond control the foreign troops and some 40,000 foreign residents will be in grave danger.

Admiral Williams, it is understood here, is in supreme command of the allied forces which have landed at Shanghai and the ships in the harbor and is directing operations. He takes command because he is the highest ranking officer there. The Japanese and the Dutch landed forces simultaneously with the United States. The British already have a large force in the international settlement and are landing more troops.

It was the early landing of the British forces which convinced officials here that the allied forces totalling 20,000 men will be able to meet the emergency. The British had already erected barbed-wire entanglements all along the streets which separate the international settlement from the native city. They have also erected bomb screens of heavy wire netting.

The two occasions recently in which American marines have been landed from the transport Chautau, to "parade" for much needed exercise, was really for the purpose of acquainting them with their defense sector, it was stated.

An attack on the international settlement appeared to be inevitable as late reports reached the state department and navy departments today. The defeated defenders of the city are being hard pressed by the Cantonese and are trying to make their way into the settlement for protection. The Chinese within the settlement are said to be either panic stricken or openly in sympathy with the Cantonese and have called a general strike, which may have serious consequences.

The allied troops have machine guns trained down every street leading to the settlement and a number of field guns are ready for action. The warships in the harbor have their guns trained on the native city and the mass of Cantonese troops beyond.

It is pointed out, however, that appalling casualties will result in the event it should become necessary to open fire. Only a narrow, winding street separates the settlement from the native city.

It would be extremely difficult, officials say, for the ships in the harbor to fire in that direction without doing harm in the settlement.

JUGO-SLAVIA ABANDONS PLAN TO SUBJUGATE ALBANIA; WAR MIGHT EMBROIL FRANCE, ITALY

By JOHN T. BURKE
Universal Service Staff Correspondent
Special Cable Dispatch.

ROME, March 21.—The war clouds are apparently disappearing, at least for the time being.

The firm stand of Italy backed not only by England but supported by France is responsible for more peaceful attitude of Jugo-Slavia.

Hope is now expressed that Belgrade will abandon the plan to invade and subjugate Albania.

While the government denies it is forwarding a formal note of protest to the powers, a spokesman for Mussolini explains it was an exchange of views with the other chancelleries of Europe on the war preparations in Jugo-Slavia.

Italy Protests

There is no doubt, however, that Italy forwarded a very strong note of protest against the insulting attacks upon the Italian army that appeared in the Servian Journal Pravda.

This note elicited an earnest apology from the Servian foreign minister with the assurance that the Pravda would not repeat the offense.

The Italian government, I am told today, warmly welcomed France's good offices with the Belgrade government, especially the declaration that the French foreign office had urgently copied King Alexander to copy a more moderate policy and leave the settlement of all boundary, territorial disputes with Albania to the arbitration council of ambassadors of the League of Nations.

Conditions Unsettled

Despite the more quiet outlook no one can foresee what an hour may bring forth in the Balkans and the fact must not be overlooked that while the Italian government has accepted the French peace pledges at their face value, the Italian press and people have been aroused by the activities of the anti-Fascist plotters in Paris and Nice and are inclined to take the professions of Paris with a grain of salt.

Long Lost Bird Of Darwin Fame Is Re-Discovered

(By Universal Service)
CHICAGO, March 21.—Meet the Uruguayan reed runner.

This straight-billed bird, object of search by the scientific world for nearly 100 years following its discovery by Charles Darwin, has been rediscovered, it was announced today.

The famous English naturalist found the rare runner on his cruise in the Beagle in 1831. Two specimens of this genus generally believed to have become extinct are included in a shipment of several thousand zoological specimens received by the museum from Uruguay where the Capt. Marshall Field expedition is now located.

The straight-billed runner is small, plain-colored, and unrelated to any bird on the North American continent. A number of other strange mammals, amphibians and snakes are included in the shipment. Among them are the Capybara—a crab-eating raccoon, a side-necked tortoise, a giant snake-eating snake, and a lance-head viper and others.

The side-necked tortoise belongs to a primitive group. It pulls its head into its shell with a sidewise motion.

POWERS EMBROILED IN BALKAN SQUABBLE

By O. D. TOLISCHUS

BERLIN, March 21.—With black clouds of war hovering over the Balkans and Italy and Jugo-Slavia at swords points, the big powers engaged in a quarrel today as to which one is to take the initiative in offering mediation and possibly calling on the League of Nations to prevent threatened hostilities.

Berlin Concerned

Berlin is gravely concerned over the British and French suggestions voiced in the press of Paris and London that such action is up to Germany as Stresemann is chairman of the league council. Such suggestions are emphatically rejected in semi-official statements published today.

Germany Neutral

Because of Germany's disarmament it is emphasized that Germany must maintain the most scrupulous neutrality and therefore is unable to act because any action might be misinterpreted as a partisan stand.

The British and French suggestions are regarded as efforts to induce Germany to haul their chestnuts from the fire and put the onus for any complications on Germany.

Arizona Town Is Scene Of New Gold Strike

(By Universal Service)
WINKLEMAN, Ariz., March 21.—Tornado, in the Dripping Springs district, scene of the latest Arizona gold strike, is rapidly assuming the appearance of a typical gold rush camp. Located at the foot of Tornado mountain, eight miles from here, the mushroom town is the scene of growing activity.

Additional prospectors are coming in and the camp continues to seethe with excitement. Claim owners are taking no chances and are guarding their claims with guns.

Hundreds of tents, in which the gold seekers are housed, are expected to be replaced with more substantial structures within a few days. Truck loads of lumber and supplies are being hurried to the district from this town daily.

While ore taken from the original pocket is said to have assayed almost \$100,000 to the ton, the extent of the strike is a matter of conjecture. Further development work will be undertaken shortly, it was announced today by owners of the property.

Sunday was a gala day at Tornado, more than 2,000 visitors visiting the camp.

Two years ago Stover and his wife were worth a quarter of a million dollars, and were operating successfully a chain of candy shops.

But Grover liked the girls he hired; and Grover and Aurelia separated.

She got her divorce today. In court it was shown that without Aurelia the chain store business languished and died.

Grover C. Stover, one time candy magnate, was shown to be able to pay her but \$12 a week alimony. Aurelia agreed to that. She plans to start another business on her own.

Anti-Italian Demonstration In Parliament

(By Universal Service)
Special Cable Dispatch

TELGRADE, March 21.—The session of the Jugo-Slavian Parliament was broken up today by an anti-Italian demonstration by part of the deputies which is expected to bring a sharp protest from Mussolini.

After the numerous anti-Italian outbursts, Deputy Wilder suddenly jumped up in the open session and shaking his fist at the Italian ambassador who was sitting the diplomatic box shouted: "The Italian ambassador is still here, out with him and his whole gang of spies. The Jugo-Slavian ambassador has already had to leave Rome. Why is the Italian still here?"
The session immediately suspended while the cabinet met to consider the situation.

Man Wants Wife If She Brings Back Furniture

(By Universal Service)

NEW YORK, March 21.—Paul Forester, wealthy broker wants his furniture back.

Mrs. Muriel Forester, his young wife took it when she moved from their Park avenue apartment last week. Their society friends knew nothing of the separation until Forester, who is much older than his wife, advertised he would not assume further responsibility for her debts.

Although Mrs. Forester, the May of the May-December romance was quoted as saying she had been "disillusioned" close friends of the couple today said Forester would welcome Mrs. Forester, if she would return, bringing the furniture with her.

Speculation as to who made the move was not ended today. Mrs. Forester is reported to have said: "What is a married woman to do when her husband tells her to get out of the house. That is what Mr. Forester told me last Tuesday evening, that is what he said when I returned from an evening spent with friends who had dined with us."

Mr. Forester is fifty-three. I was nineteen when I married him. From our wedding day he has insisted upon having the upper hand. Recently he has grown cold and indifferent.

ROME, March 21.—"I am not engaged to any one and I do not want to marry anyone."

This was the reply today of Mary Landon Baker, of Chicago, when asked if it was true that she is about to wed the Marquis De Benzis, a neapolitan nobleman who has been paying devoted attentions to her for months.

Mary coyly admitted, however, that she has "a tiny corner in her heart" for a gallant young Servian officer who has been making love daily by wire from Belgrade.

ITALY RISING TO MARITIME SUPREMACY

By JOHN T. BURKE
(By Universal Service)

ROME, March 21.—Italy is determined to forge ahead into third place as a maritime power.

The recent launching of the Augustus, sister of the Roma; the Vulcania, the giant tanker, and a dozen other vessels from 6,000 to 15,000 tons, has inspired the belief that within two years Italy will pass Japan and France. This belief is based on really wonderful progress in shipbuilding since the war.

Today Japan is credited with a commercial tonnage of 3,968,000. France follows with 3,491,000 and Italy pressing hard upon her Latin stepsister's heels with 3,421,000.

Shipyards Busy

When one reflects that at the present moment the shipyards of Italy are building vessels aggregating 278,000 tons, about one-fourth of the world's production, one pardons the jubilant prediction of her statesmen and steamshipmen that Italy's drive for her share in the world's markets and trade is one of the most remarkable of postwar achievements.

Of course, theorists are still bubbling over with enthusiasm at the prospect of the launching within a few years of the "dream ship," that are to eat up the miles between Naples and New York in five days (or less)—but practical shipping men, hopeful that Italy will register on the sea the suc-

Little Girl Is Killed By Auto Of Fire Chief

(By Universal Service)

CHICAGO, March 21.—Speeding to answer a fire alarm today a battalion chief's automobile struck and killed a little girl who was returning home from school. With sirens sounding, the car sped around the left side of a street car and struck the girl.

Chief James Harold's car skidded to a stop. Harold ran to the girl and picked up her limp form. A moment later, the big red car was going faster than ever, this time to a hospital, the fire forgotten. Doctors at the American hospital said the girl was dead when she was taken to the operating room.

cess she has achieved in the air, continue to build comfortable, speedy passenger steamships and capacious cargo vessels.

An Uneasy Feeling

Nevertheless there is feeling of uneasiness that Mussolini's "flying sea giants" operated upon a new secret principle may become realities, and this feeling is based on faith engendered by the fact that all or nearly all of the Duce's prophecies and promises have been fulfilled.

Of course, if the dream, as some call it, comes true—and Mussolini is a very sharp dreamer—it will mean the junking of the old style passenger boats.

SPORTS

TRAINING IS STARTED BY JACK DEMPSEY

By FRANK G. MENKE
(By Universal Service)
LOS ANGELES, March 21.—Jack Dempsey today decided upon a training camp and will proceed to "tune up" on Wednesday or Thursday of next week.

The ex-champion, after looking at a dozen sites, will go to Wheeler Hot Springs, in the mountains, near Ventura.

"For the first week or two I'm going to do nothing but calisthenics and plenty of roadwork," he said. "After that I'm going to get a wrestler or two into the camp and add wrestling to the road work. For the next two weeks I'll be busy with road work, wrestlers and sparring partners, although if I cannot find good sparring partners, I'll get my punching practice on the big bag."

"I'm going to camp in some opposition to orders from some doctors. They want to do a slight intestinal operation, saying that will correct all my trouble. I'm not inclined to agree with them. I figure that plenty of rough hard work is all I need—and I'm going to get that first of all."

"If I don't swing back to real condition with a month of roughing it, I may go through with the operation—but that will be only a last resort."

"I figure I'll be up in the mountains until the middle of April. If I have to undergo an operation after that it won't be a serious one—perhaps won't lay me up more than a few days and I ought to be ready to get into stiff training again very early in May."

"Once I'm right, whether made so by my own roughing it here or by an operation, it won't require more than about six or eight weeks after that to get me tuned up for a real fight. And that means I'll be fit and ready by July 1st for anyone in the world."

"I've got my mind set on fighting somebody on or about July 4th, and I'm going to do it."

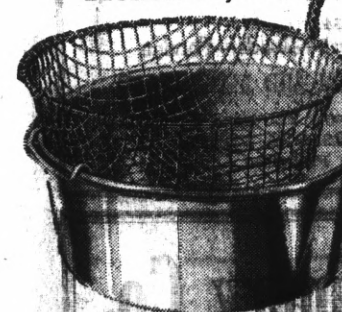

Dempsey bulks around 210 now—against 190 the night he fought Gene Tunney. That means 20 pounds overweight, as compared with his Philadelphia poundage. But Dempsey says he was "too fine" for that fight and won't weigh less than 196 or 198 when he fights again.

The ex-champion looks and seems to feel entirely recovered from the blood poisoning attack in his left arm of more than a month ago which nearly cost him his world famous "left hook."

"I feel better right now," he said today, "than I did at any time during the week before I fought Tunney."

PENNOCK MUST SIGN OR GET NEW YORK, March 19.—Herb Pennock, long-distance holdout of the Cardinals, was told today by Jacob Ruppert that he either must sign his contract by the early part of this week or return it. He may be declared ineligible.

MANDELL MEETS TEXAN DALLAS, Texas, March 19.—Defending his world lightweight title, Sammy Mandell will appear here March 25 against Tommy White, sensational Texas lightweight under the auspices of the Good Sinners club.

HOW MUCH KRAUSE? O. K. Harry Krause, veteran southpaw of the Oakland club, is no longer a holdout. Yesterday Manager Ivan Howard called him to the mat and said: "Now look here, Harry, just how much money do you want for the season? Krause demurred for a moment and with the light of battle in his eye told him.

"Sign here," said Ivan. And Krause strolled out to give the boys some batting practice.

AFTER THE GAME IS OVER More than 50 men at the University of Southern California are trying out for rifle teams. Since shooting has been made a minor sport at the institution, a packed squad will shoot telegraphic matches with Washington, Stanford, California, Colgate, Columbia, Harvard, College City of New York, Carnegie Tech., New York University and Massachusetts Tech. The men will not be allowed to carry the firearms around with them.

SWIMS GOLDEN GATE Falling 15 minutes short of trying the standing record for swimming the Golden Gate, Leo Purcell failed to make a new mark Sunday although he completed the swim. His time was 36 minutes 3 seconds. Walter Pomeroy holds the record.

ZINGG-ZINGG-TOO BAD Diamond "trotters" of the Alameda Zings in Primo's, were all primed for a win over the San Francisco Yellow Cabs Sunday after the smoke had cleared, the across the bay boys had emerged on the top side of a 5-3 score, and therefore are the winners of the northern California midwinter championship. The Cabs were too fast for the Zings. It may be said in passing that none of the cab boys were yellow. After their victory they sang in unison "Where Do We Go From Here Boys?"

NEW YORK, March 21.—Pete Latzo, world's welterweight champ, will defend his title at the Polo Grounds on May 24. An effort is being made to get Joe Dundee as his opponent.

Iron Annies Win Fast Game From Merchants

They're off! The Richmond Iron Annies. This was evident after the Iron men had emerged on the top side of a 12-4 score in their first game of the 1927 season with the Albany Merchants, champions of the Oakland Winter league, at Bushrod park Sunday.

The Annies poled 15 hits, one of which was homer by McNulty. They made but two errors. Albany made four runs, seven hits and one error. Twirlers for the Annies were Case, Atkins and Moss. Atkins pitched the last five innings allowing but one hit.

The Iron Annies met Petaluma at that city on April 3 in the last game before the opening of the three C league. Following is Sunday lineup:

Daley, ss; Greathouse, lf; McNulty, rf; Surgin, lb; Moss, c; O'Rourke, cf; Taylor, 2b; Barbieri, 3b; Case, p; Atkins, p; Harrison, rf.

RESULTS OF STANDARD OIL PIN CONTESTS

RAY SCHRADER LEADS FIELD IN GOLF PLAY

R. H. Schrader stroked a brilliant 79 to take first place in the first round of the annual directors' cup tournament played at the Carquinez links Sunday by two-score players of the Carquinez Golf club. Second place was won by J. H. Beers and E. B. Keller, who shot 80 strokes over the 18-hole route. L. E. Roberts was third with an 83 tally. Week-ends from now on will see the players on the links playing off the rounds until the winner of the net medal score is determined for 72 holes.

Following is the score for the players:

J. J. Long, 92; J. H. Beers, 80; F. A. Mero, 95; J. C. Hemmingway, 95; F. N. Gordon, 84; J. E. Magdon, 84; F. A. Dodge, 88; G. F. Trebilcock, 84; R. H. Schrader, 79; J. E. Durand, 93; A. A. Large Percentage Of Freight Cars In Need of Repair

(By Universal Service)
WASHINGTON, March 21.—Freight cars needing repairs March 1 totaled 138,292, or 6.1 per cent of the number on line, the American Railway association announced today. This was an increase of 2,236 cars above the number needing repairs February 15.

Mexicans Urged To Use More Soap

MEXICO CITY, March 18.—Mexico and the Mexicans are getting cleaner and cleaner every day.

The story is told not by social workers, but by government figures on the manufacture of soap for purely domestic consumption. Moreover, under a campaign of publicity being carried on by the federal health department in cooperation with an American-owned soap factory, it is expected that the consumption of the product will continue to increase and that the republic as a whole will be just that much cleaner.

The campaign is paying especial attention to the youth of the nation which is being urged by billboards and other advertising mediums to wash its collective neck and ears regularly as well as the face and hands. Health department notices urging the importance of washing the hands before each meal are being placed in leading restaurants.

According to the calculations of Secretary Luis Morones of the department of industry, commerce and labor, soap manufacturing in Mexico has been increasing steadily during the past four years until production during 1926 approached 65,000,000 pounds. The increase in domestic manufacture more than balanced declining imports, which came largely from the United States and France.

Factories in Mexico City and its suburbs produce more than ten million pounds annually in a metropolitan area of about 900,000 population. The most important factory in the "province" is located at Torreón, and there are large plants, too, in Lower California, Durango, Nayarit, Guanajuato, Sinaloa, Vera Cruz and Yucatan—the cleanest spot in the republic.

California's 1927 citrus crop, largest in state's history valued at approximately \$100,000,000 based on shipments of 53,200 cars.

Hope Is Held For Total Deaf

(By RUTH COLLIER)
(By Universal Service)
BERKELEY, March 21.—Hope for the totally deaf was held out today with the announcement by Professor V. O. Knudsen of the University of California at Los Angeles that sounds may be "felt."

Dr. Knudsen, one of the nation's foremost experts on acoustics, has shown conclusively that the sense of touch can be used to detect intensity or loudness of tones with absolutely the same efficiency as the ear. However, the tactile sense cannot respond efficiently to differences of pitch, although it can distinguish between high and low-pitched vibrations.

Professor Robert H. Gault of Northwestern University first attacked this problem. He succeeded in training totally deaf people to recognize different vowel sounds and the names of the days of the week through their sense of touch.

Skin Does Not Breathe But Eats

(By Universal Service)
BERLIN, March 21.—The human skin does not breathe; as is generally assumed; but it can eat.

"Skin food" is not necessarily a beautifier. It can be used to feed the body as well, serving as a second mouth.

This discovery has just been made by two Viennese scientists, Professor R. Latzel and Professor K. Stejskal.

Feeding through the skin may assume an important role in the treatment of patients suffering from stomach troubles, the two discoverers believe.

They also found that the recorded deaths of stage and circus artists who had painted their bodies with lac-dyes so that the skin was closed air-tight, as had been assumed, rather, these artists had been frozen to death.

The lac, the two professors say, irritated the nerves that regulate the heat of the body, so that the body gave off more heat than it could produce.

LOS ANGELES LAUNCHES NEW MORTGAGE GUARANTY CO.

The Pacific Mortgage Guaranty company, with an authorized capital of \$1,000,000, and owned by The First National Bank of Los Angeles, Merchants National Trust and Savings Bank, the California Bank and the Pacific-Southwest Trust and Savings Bank, has been launched in Los Angeles for the purpose of selling to Eastern banks, insurance companies and other financial companies desirous of loaning money in California, either directly through first mortgages, or indirectly through the purchase of bonds and other securities, with a steady volume of business, made, insured mortgages.

The demand for California securities of this type is great. Eastern institutions are assured of an unfailing supply. The Pacific Guaranty Company through its stockholders, which constitute some of the largest banking groups in California, expects to fully satisfy such demands.

Italy Throws Wrench In Cog Of Disarmament

(By Universal Service)
GENEVA, March 21.—Declaring that Italy must first have an army equal in size to any other continental power and that then it would be ready to disarm equally with the others, General De-Marines and the other Mussolini delegates demanded today in the first session of the preparatory disarmament commission of the league that revision of armament in Europe should precede the limitation and stabilization of armament.

Italy, it was assumed, insists that her standing military strength be equal to that of France and perhaps also of Russia.

May Utilize Seal Fund For Preventorium

MARTINEZ, March 21.—That funds from the sale of seals last Christmas should be utilized immediately in the construction of a 16-bed preventorium for tuberculosis in this county, was suggested today by T. B. Swift, treasurer of the Contra Costa Health association, in a letter addressed to the board of supervisors.

It was suggested that Sunshine camp, which has been conducted for six weeks each year by the association, be abandoned this year and all efforts centered on the preventorium.

The subject will be discussed at a dinner next Friday night by the association, the supervisors and the welfare committee of the Kiwanis club.

A beautiful pageant was presented and some exceptionally good music rendered by the children.

2000 PARADE IN REVIVAL SERVICE HERE

Opening the last week of the union revival services being held in Richmond by Dr. Ellwood Bulgin, a procession of more than 2,000 persons paraded Macdonald avenue Sunday afternoon, preceding the holding of simultaneous services in three different places.

The parade was led by the territorial staff band of the Salvation Army of San Francisco, and stretched for more than six blocks.

Three mass meetings were held, at 2:30 the men at the tent, with Dr. Bulgin speaking; the women at the First Christian church, with Charles Clark speaking, and the children at Wesley church, with Roy Gourley in charge.

The largest crowd yet packed into the big tent was at the 7:30 union service last night, when Dr. Bulgin spoke on the subject, "Is There a Bible in Hell?"

"God never intended for men and women to go to Hell. Hell was made for the devil and his angels, and Bud, if you go there, it will be your own fault. You will trample under your feet the precious blood of Christ if you go. No man can blame God if his future home is in Hell," declared the evangelist.

"Hell is a necessity, and every intelligent lawyer ought to know that crime, committing demands a place of punishment, and to reject Jesus Christ and trample under foot the mercies of God, is the greatest crime known."

The subject tonight by Dr. Bulgin will be "Was Moses Scientific?" Wednesday night will be lodge and club night, and Friday night will be young people's night or high school night. The revival will close next Sunday night.

A capacity house attended last night's services in the big tent at Seventh and Nevin, and heard an exceedingly well presented program given by the children under the direction of Roy Gourley, assisted by Charles Clark.

THE BEST INVESTMENT IS IN FONG WAN HERBS
4837 Shattuck Ave., Oakland, Cal. July 30, 1924

Ten years ago I had Malaria which left me with a twinging pain in my left kidney and running around my left side. Before I came to Oakland I had treated with numerous doctors in New York. As I got no relief whatever, I was advised to make a change of climate. I therefore came West but here I suffered as badly as ever.

Finally a friend urged me to try the FONG WAN HERBS. One week of that treatment gave me wonderful, permanent relief. During the year that has elapsed since I have had absolutely no indications of my former complaints.

How wonderful it seems that the FONG WAN HERBS could thus help me after the doctors and hospitals had failed. I am a barber by trade. Had it not been for the FONG WAN HERB TREATMENTS how could I have earned a living while suffering with those terrible pains?

I am very thankful to the FONG WAN HERB SPECIALIST for what he has done for me and am giving him this testimonial as a token of my gratitude.

Early Gold Rush At Weepah Is Described By Old Prospectors

By E. N. RICHARDSON
(By Universal Service)
TONOPAH, Nev., March 21.—While many thousands of words daily have been broadcast by radio and the press associations about the gold rush to Weepah, the early history and geology of the district seems to have been overlooked by the newspaper scribes in their hunger for the more colorful features of this, the wildest gold rush in the history of Nevada.

In 1885 Bat Worley and Jim Knapp, seasoned prospectors of the type that prevailed before the lowly burro was supplanted by the automobile, John Harrington, a young lad just arrived from the East to seek his fortune in the Golden West, prospected for several weeks in the section now known as Weepah.

"Everything Gold"
"Everything we found was gold," said Harrington, now a hoist engineer employed by one of the Tonopah mines, "but it was what in those days was classed as low grade. We picked up a few pieces of rich float but we could not find the ledge from which they came."

"About a dozen Mexicans were camped near the hill where Young Horton and Traynor made their big strike a few days ago. "Boney Acquire, one of the Mexicans, could talk a little English but he was uncommunicative about where they were getting their gold. It was known, however, that they had made frequent trips to Austin where they exhibited sacks of gold dust and nuggets. Not being American citizens the Mexicans could not locate any ground and one could hardly blame them for guarding their secret carefully."

"We located a number of claims and took numerous samples which we later took to Candalaria, then a prosperous camp of several thousand people, to have assayed. Our samples returned an average value of \$11 per ton gold, the highest assay being \$28. In those days when ore had to be hauled hundreds of miles by ox team, no one paid any attention to ore that did not run at least \$75 or \$100 a ton, so we never went back to do our location work and did not bother about recording our claims."

Offered \$10,000
In 1906 Tasker L. Oddie, now United States Senator from Nevada, sent Harrington to Weepah to examine and negotiate for a property owned by a man named Darrow. Upon Harrington's recommendation Oddie offered Darrow \$10,000 for his claim but Darrow refused.

Thus it will be seen that Weepah is not exactly a "new" district. It is about 15 miles east of the old Silver Peak mine and located near the Mt. Diablo base, 27 miles west of Tonopah. The region has been violently disturbed. A granite contact with a hard, blue, siliceous dolomite line is in evidence and at places is overlaid with shale or chert. Lower down the canyon a broken up blue slate is a prominent part of the wash gravels. In one place a gravel conglomerate indicates an old sea beach.

The discovery hole that is causing all the excitement with its rich contents is a short cut in the hillside, about two feet wide, six feet long with the uphill face about four feet high.

"Picture Rock"
Letson Balliet, Tonopah engineer, who has made several examinations of the find, said: "This may be the top of a chute or pocket. The face still shows exceptionally rich gold ore, or what is generally referred to as 'picture rock.' How far it may extend I cannot tell."

\$10 a Pound
"The floor of the cut has been tramped on and the loose 'fines' have been so tramped down that no one can see what is the bottom. This spot has been productive of rich specimens that car-

THIEVES LOOT THEN SINK SEA SLED

Thieves stole a giant sea-sled owned by Dr. Reback of the Oakland Emergency hospital, from its anchorage in the Ellis canal near the Lauritzen landing, Saturday night, took it into the bay, and stripping it of all its movable accessories, sank the vessel off the old quarry wharf at Winehaven.

The sea-sled was located a few hours after its loss was discovered by Inspectors L. E. Jones and Deputy Sheriff J. W. Smiley. After working all Sunday night, Dr. Reback and assistants brought the boat to the surface. No serious damage had been done. The skiff had been submerged by pulling out the plug where the exhaust pipe goes through the end, it was reported.

The sea-sled is 36 feet in length and is valued at \$5,000. It is furnished with two 60-horsepower motors and is one of the fastest boats on the bay. All accessories except the steering wheel were found under the wharf.

Thirty Local Men Will Enter Scouts In S. F.

Richmond Pyramid of Scouts will take more than thirty neophytes to San Francisco on April 30 for initiation at the gala ceremonial to be held under the auspices of the Scout organization across the bay. The rituals will be held in the civic auditorium. Heralded as the youngest musical group in the Scouts world, the local Scout band has been asked to participate at the ceremonial. It is estimated that more than 12,000 Scouts including 1200 candidates will gather at the auditorium on that evening. From Fresno to Eureka the Scouts will come to give a colorful, picturesque atmosphere to the monster event. An \$8000 entertainment is being arranged by Dick Glissman, the Scout clown, who is also general chairman.

Requests Phone Connection With Local Exchange
H. B. Hollenbaugh of the Annex district, that territory recently taken into the City of Richmond, appealing before the council at its meeting last evening and thanked the members for their work in having the trees of that section trimmed.

He was also very anxious that the council use every endeavor to have the phones there connected up with the Richmond exchange. Hollenbaugh stated that as conditions exist at the present time, a long distance call has to be made every time the police, fire department or the city hall is called.

The council informed him that they were working on the telephone problem, and it was possible some satisfactory solution might be worked out.

BACK IN TRIM
After a long illness, City Councilman John N. Hartnett was able to be out on the streets yesterday renewing acquaintance with friends.

CONTRA COSTA SCOUTMASTERS HOLD MEETING

The Scoutmasters and assistant Scoutmasters of Contra Costa county were guests of the county council at a dinner given at the Scott hotel in Martinez Saturday evening, March 19. President Swift and Hon. A. B. McKenzie represented the council. Donald Munroe of Berkeley gave a splendid talk on The Scoutmaster and His Relation to the Troop Committee.

Scoutmaster R. Boydston of Pittsburg gave a short talk on their method of using Scouts to control traffic during school intermissions.

Deputy Commissioner George P. Glineburg spoke on the Sea Scout activity which he is developing in Richmond.

The Scoutmasters will meet next month in Crockett as the guests of the C. & H. Those present at the dinner were:

Bay Point, Stanley D. Bush and H. Lee.

Crockett, George A. Johnson, Ernest Watrous, George B. Johnson, E. O. Hill.

Concord, George P. Jackson and Walter Granlund.

Fire Expert Demonstrates New Auto Tire

To demonstrate a new puncture-sealing inner tube for automobile tires, C. A. Polson, vice-president of the Polson Rubber company, whose products are handled at the Western Auto Supply store here, was in Richmond yesterday.

By use of an inner rubber cushion no loss of air is suffered when a nail is removed from a punctured tube. The cushion rests within the tube and the outer circle of the tube, and when a nail is removed it springs back into position with an airtight compression preventing loss of air.

COUNCIL ORDERS SEWER PLANS

Sanitary sewers are to be installed in the territory bounded on the east by the city boundary, on the west by Key boulevard, on the north by Esmond avenue and on the south by the Richmond traffic center.

The council at its meeting last evening ordered City Engineer E. A. Hoffman to prepare plans and specifications for the work.

HELEN WILLS BACK PASADENA, March 21.—By defeating Marion Williams, southern California singles title holder, 6-2, 6-1, here yesterday, Helen Wills, former national women's tennis champion, has annexed another title to her drive for the national title again. This was the final match of the women's singles in the annual Hotel Huntington invitation tournament.

GETS BUICK SHIPMENT
C. C. Kratzer, local Buick dealer, yesterday received a carload of new Buick cars.

Sunday Is a Tough Day For Newspapermen

Edgerton McAllister, Oakland newspaper photographer, yesterday reported the loss of a French Sept amateur motion picture camera between Richmond and Winehaven, to the Richmond police. The machine is valued at \$50 and a reward has been offered for its recovery.

The camera is of black enameled metal and was inclosed in a light brown leather case. It contained 150 feet of exposed film. It is thought that the camera was lost on the highway just south of Winehaven, or on the private road leading from the highway to the old quarry, near the wine association plant.

John Del Valle, Oakland Tribune correspondent in Richmond, who was with McAllister at the time the camera was lost, also reported to the police that the motor and radiator cap of his machine was stolen while his car was parked in Richmond. Scant hope is held out for its recovery.

Harding School Dedication To Be Held Tonight

Official dedication of Harding school, the latest addition of the Richmond district, will be made this evening in the auditorium of the new building.

City Attorney Wilbur S. Pierce will deliver the main address of the evening. City Superintendent of Schools W. T. Helms and members of the board of education will officiate. A number of vocal offerings will be sung by Mrs. Ross L. Calfee.

The following program will be presented by the pupils: Recitation by the kindergarten; drill, "Wild Flower Friends," by the first grade; Japanese drill by the second, third and fourth grades; two plays by the fifth, sixth and seventh grades; "Our Flag," and "Colonial School."

Key System To Dedicate Right Of Way To City

The Key Transit System signified its willingness to dedicate its 50-foot right of way on Key boulevard, between Prather and Macdonald, to the city of Richmond, providing it is permitted to retain its franchise as the dedication is received, which has been left in the hands of City Engineer Hoffman, action on the petition to have Key boulevard and Prather avenues improved will be taken by the council.

Mrs. J. Carr Is Called By Death

Funeral services for Mrs. Joanna Carr, 558 Ninth street, who has been a resident of this city for 39 years, are pending at the Wilson and Kratzer parlors. Mrs. Carr passed away Sunday morning at St. Luke's hospital in San Francisco following an operation.

Surviving her is a husband, George E. Carr of Richmond; the parents, Mr. and Mrs. F. A. Akin of Fresno; two sisters, Myrtle Akin of Palo Alto and Mrs. H. A. McNary of Richmond; and a niece, Miss Jessie Carey.

NEW HYDRANT

On the recommendation of Councilman W. W. Scott, the council last evening ordered a fire hydrant installed at the northeast corner of Thirty-first and Nevil avenues.

TWO CONFESS TO SLAYING N. Y. EDITOR

(Continued from Page 1)

the crime weeks in advance. Mrs. Snyder had increased her husband's insurance to \$25,000 and it was the thought of the insurance money and Mrs. Snyder's threat to tell Mrs. Gray of their illicit love that forced him into it, he is quoted as saying:

Three weeks ago, Gray declares he purchased the sash weight and gave it to Mrs. Snyder. It was hidden in the house. Then he went to Syracuse and established "the perfect alibi." He wrote several letters and arranged with a friend to mail them late Saturday. Then he purchased chloroform and the picture wire which was found twisted around the editor's neck.

He mused up his bed at the hotel in Syracuse, told attendants he did not want to be disturbed, hung a "quiet" sign on his door, and caught a train to New York at 10:10 Saturday night. He arrived at the Snyder home at about midnight and slipped through an open door and hid in a downstairs room.

He was there when Mrs. Snyder and her husband and daughter returned from the party early Sunday morning.

After Snyder had retired and his wife had kissed him good-night—and good-bye—he crept downstairs and the pair met in that love tryst that was to end in death.

Mrs. Snyder got out the sash weight and Gray declares he made ready the chloroform and picture wire. Finally they crept upstairs. Gray used the chloroform and then the heavy sash weight. Then he declares Mrs. Snyder took the weight from him and struck Snyder another blow.

From there on the young widow sobbed out to police Monday, Gray declares, according to the district attorney he tied and gagged Mrs. Snyder on her order and let the house. At 8:45 Monday morning just 15 minutes after the battered body of the editor was found—Gray caught a train back to Syracuse where he was arrested following Mrs. Snyder's startling and gruesome confession Monday afternoon.

"Miracle" Producer On Way To Europe

(By Universal Service)
LOS ANGELES, March 21.—Morris Gest, noted producer of "The Miracle," is on his way to Europe. Following a day's stay in New York, Mr. Gest will sail for Germany, where "The Miracle" will open April 14 with Lady Diana Manners. The producer will return to Los Angeles some time in July to supervise the filming of his first motion picture, "The Darling of the Gods."

Before his departure Mr. Gest announced he would stage a gigantic production of "Chauve Souris," here next spring. "Chauve Souris," a noted production by Nikita Baloff, was first staged by players of the Moscow Art theatre 20 years ago. Years later Mr. Gest saw it presented in Paris and arranged to bring it across to New York where the production remained for ten weeks.

be a patriotic member of the Merchants' association and sport tuxedo regalia at the dance?" Concrete facts are that Rich-

Hardway company, has given up the tuxedo for the time, and is restocking in overalls. The demand has been tremendous. Marie Macdonald Jensen, secretary of the Merchants' association reports, Johnson has sold out every bib and tucker he possessed. From the opposing camp of Tuxedo comes only ominous portents.

Both sides claim that the Get Together is going to be an overall affair—or that only Tuxedos will gleam in unprecedented brilliance when merchant meets merchant the evening of April 18, in Hotel Carquinez.

Tickets for the affair have numbers printed in red and blue. The overall encampment has chosen the natural color of blue for its standard. Left with no other choice, the Tuxedo barons have accepted red as their symbol of revolt from the garb of oppression.

"But what are they going to do, if the numbers run out?" one asthmatic young lady queried yesterday, and her bush proclaimed her at least a silent sympathizer with those who crave a starched front to a limp one.

MRS. BEDBURY IS LAID TO REST
